

Fastweld & Fastwood

Epoxy Putty Sticks

United Resin's Epoxy Putty Sticks are the Product of Over 30 Years of Manufacturing Experience

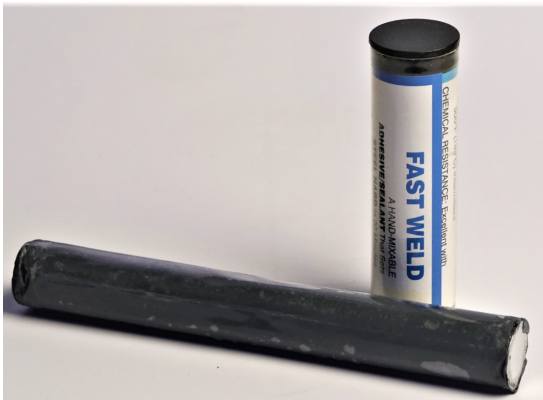

Fastweld

Fastweld cures in 5 minutes and hardens like steel in 20 minutes. It forms a tenacious bond in minutes, even underwater, and may be drilled, filed, tapped or sanded after 1 hour. Standard colors: black, gray and white.

Fastwood

Fastwood cures in minutes and is designed for permanent wood repairs such as filling nail holes, replacing and reshaping wood parts and for general restoration. It can be molded to any shape. Standard colors: natural, pine, and dark wood.

***Standard lengths
3.5" and 7"
Epoxy Putty
Sticks are
activated by
hand mixing.***
